

A NEW WORLD TO COME

They live inside my head
No more control
I wish I could say « No! »
Sweep away by the current
Irrepressible need

I don't know this direction
Abstract lights burn my eyes
Confused voices sound everywhere

I let them try
To « help me »
That's what they said

I let them try
To « understand me »
That's what they said

**They try to save me
But I'm already gone
For a new world to come
I don't know where I go
But it has to be done
For a new episode**

Lost in my head
Another life has to begin
It's like falling into a coma
But all I want is to escape this story

This strange feeling
That something bad will happen
Just give up
In frustration and anger

They told me not to go
They told me I need help
But All I want is to forget
Just let me go!

**They try to save me
But I'm already gone
For a new world to come
I don't know where I go
But it has to be done
For a new episode**

Free me
Leave me
Come with me
Build our future

They live inside my head
They tell me what to do
They tell me what to say
All I want is to forget

This is the beginning
Of a new age
No more rules
No more reflexion
Violent explosion

They tell me what to say
I did not resist, I let them do it
All I want is to forget
Just let me go

**They try to save me
But I'm already gone
For a new world to come
I don't know where I go
But it has to be done
For a new episode**

Free me
Leave me
Come with me
Build our future

HOME

Look into these eyes
I would like to run away
Being free is my only wish

Nobody helps me
Now I'm locked up alone
How long will I stay there?

Nothing
We know nothing
Suffering
We suffer patiently

A childhood has been stolen
Now I will be growing quickly
I have already many plans
For the day I will leave this prison

All will change
All will never be the same
A lost innocence
But still
For the day I will go back home

I have never seen the face
of my tormentor
But I begin to imagine him
My fear is decreasing every day
I'm preparing to kill him

Unhealthy thoughts swirl
in my head
My eyes are full of hate

A childhood has been stolen
Now I will be growing quickly

I have already many plans
For the day I will leave this prison

Tortured, I will never forget
Abused, I will never forgive
I know I'll manage to escape
And want him, to feel the pain

All will change
All will never be the same
A lost innocence
But still
For the day I will go back home

It's done I see the sun
Many years have passed
Now I'm feeling freedom
It's done, I'm leaving this prison

A childhood has been stolen
Now may my feet walk
the right path
I have many plans on my mind
'Cause I am leaving this prison

I have changed
I will never be the same
A lost innocence
But still
It's the day I will go back home

It's done I see the sun
Many years have passed
Now I'm feeling freedom
It's done, I'm leaving this prison

UNFAITHFUL WHISPERS

Do you hear this voice inside you?
When you're falling
You feel this hand that
is catching you
You want to close your eyes
but he stops you
He stays on your shoulder
Then he guides you

You believe that your life
has no meaning
You see in which fallen world
you were born
All your hopes disappear

Nothing makes sense anymore
Sins are surrounding you
You want everything to end
And this is when he appeared

**« You better
Watch out for the world you live in »
Hopes, (and forgiveness)
are utopia
In joy or sadness
(he will always be by your side)
His whispers (his whispers),
wrapping your...**

He shows you how
to continue to exist
Find your way through
this world you hate
Your weakness becomes
your strength
What you thought were sins are
now your own purity

**« You better
Watch out for the world you live in »
Hopes, (and forgiveness)
are utopia
In joy or sadness
(he will always be by your side)
His whispers (his whispers),
wrapping your soul**

Angels don't exist
Demons are legends
It's what you create
It's what you believe in
That will lead your life

In this falling world
I know I'll have to fight
Unfaithful whispers haunt my head
But I must follow them

**« You better
Watch out for the world you live in »
Hopes, (and forgiveness)
are utopia
In joy or sadness
(he will always be by your side)
His whispers (his whispers),
wrapping your soul**

HUMAN SAVIOR

The Human Savior
is talking to you
Approach and listen carefully
Humans will be rescued
We've got a plan

A genius has talked
We know what to do
Get in line and wait
You'll see what will happen
Humanity will be saved

Listen, learn – don't disagree
You will educate your childrens
with these rules
A pill of oblivion each morning
No education – None will
go back to school
You will take the hand
of each other
A big smile on your face

Get in line
It's time to remove your brain
You're just a piece of shit
Only I can save you

Get in line
I will tell you what to do
Weakness is in your mind
I will save you

**Just because you
don't open your eyes
You will be dead before you live
The Human Savior
Is an entity created in their minds
To kill themselves**

Get in line
It's time to remove your brain
You'll live in a beautiful world
Where euphoria is Queen

Get in line
Don't follow your instinct
Your mind can't think anymore
That's the model

Walk and crush the dictatorship
We offer to save you
But what is the price?
Be confident and let yourself rise
The real Human Savior is you!

**Just because you
don't open your eyes
You will be dead before you live
The Human Savior
Is an entity created in their minds
To kill themselves**

Rise!

CHRYSALIS

Here I lie in the darkness
I feel the walls of my Chrysalis
I feel the moisture in the bleakness
Will I ever fly away?

Whatever took the place
of my blood
Grows and makes me
lose my ground
An evil beast that is collapsing
Still waiting but is it hatching?

All destruction (*destruction*),
shall be deeper
Self destruction (*destruction*)
is ever deeper

I feel the walls of my Chrysalis
The only thing that surrounds me
I hit, hit more and more
Will I ever fly away?

The Illusion you've built on me
Into this Chrysalis has let me
I've locked myself alone in pain
Will I ever fly away?

I feel the walls of my Chrysalis
The only thing that surrounds me
I hit, hit more and more
Will I ever fly away?

Show me the way
I'll never let myself go
I want to heal
But I opened my wounds more
I create my Plague
That's how I became this beast

Free me
Free me from my demons
Free me
Free me!

I just wish you will forgive me
I share with you my chrysalis
I'm forcing you to watch
these scenes
That's how I fall more and more
And I'm dying

I feel the walls of my Chrysalis
The only thing that surrounds me
I hit, hit more and more
Will I ever fly away?

To all the people I've enclosed
with me
I'll break the walls of my chrysalis
And I swear that one day
We will fly together far away

DUALISM

No explanations
No rules
No differences between right
and wrong
A battle line drawn in the sand
Eclipsed by the blood wave

A tear of joy becomes
A tear of sorrow

Nobody can lead the way
Who knows what is goodness?
Where is the limit of fairness?
Far for one - Close for the others

**A choice for a day
Consequences for eternity
Love turns into hate
Hate turns into love
Turn the light on
sounds impossible**

A mirror reflects two worlds
Will I find the bright side?
Someone is on the other side
Is it me?

Thoughts are reversing
The right path must be taken
This is a major decision
Harrowing choice

Identity trouble
We must live with it
What is written is engraved
forever in every souls

« Oblivion » is a lie
What's beauty, intelligence
and courage?
Guilty or not guilty
It depends on the judgment

**A choice for a day
Consequences for eternity
Love turns into hate
Hate turns into love
Turn the light on
sounds impossible**

Two bodies
Head against head
Eyes closed
are fighting like Aries
When will this finally stop?

Forgiveness is a solution
But memory never disappears

Identity trouble
We must live with it
What is written is engraved
forever in every souls

MY LAMENT (BEFORE THE DISASTER)

I've been walking aimlessly
for days
A feeling of revenge in me
I met many people
but I'm waiting for the good one
I feel my blood burning
My eyes are crying
Some tears are dropping
And my mind is full
of dark thoughts

I think I feel the madness
I know it's inside me
It doesn't let me feel any sadness

Without knowing what brought
me here
My anger keeps on rising
My mind is full of harshness
Nobody can defeat me

My heart hits my chest so hard
This moment will finally come
I will take you all
It's time to deliver me

**I don't know who I am
What brings me here
It's my Lament
Before the Disaster**

I think I feel the madness
I know it's inside me
It doesn't let me feel any sadness

Louder
scream for me louder
Suffer
suffer harder

Now hear my words
That nobody has heard before
It's the last thing you'll know
about me

My Lament
My Disaster
Will follow me
In my shelter

I've been walking aimlessly
for days
A feeling of revenge in me
I meet many people
but I'm waiting for the good one
I feel my blood burning
My eyes are crying
Some tears are dropping
And my mind is filled
of dark thoughts

**I don't know who I am
What brings me here
It's my lament
Before the disaster**

Now hear my words
That nobody has heard before
It's the last thing you'll know
about me

Louder
I scream louder
Suffer
I suffer harder

SHADOWS FROM THE PAST

We are moving in a dense fog
Emptiness deeply takes us
But we must be stronger
The Fight can begin

Silence destroys the inside
Words catch fire like a dried leaf
Bodies progress mechanically
But we haven't lost our souls yet

Remember
Remember

**We must make our own way
Nobody will hold our hands
Have to survive and progress
In the Valley of shadows
from the past**

Bottom has been reached
Agony is everywhere
and we are standing up
Struggling against it

Slowly chains are breaking
Power fill veins

Now we know what happened
But we don't feel pain anymore
Shadow's scream becomes silent
Ending a long hard road out of hell
Ending a long hard road out of hell

This is the end of pain

A fierce dance pushes
everything away
in a chaotic tempest
Shadows are chilled to the bone
Our bodies progress into
a human shield
We are stronger and we prove it!

This is the end of ache
You will not control us
We lead our own way

Remember
Remember

**We must make our own way
Nobody will hold our hands
Have to survive and progress
In the Valley of shadows
from the past**

Ending a long hard road out of hell
Ending a long hard road out of hell

BORN

Here I am
At the end of the road
Looking at a bright ray of sunshine
It was hard, tears fell, but I stand
on my feet
Hope is finally in me

The wasted can be saved
No one saved me
No one saved me but you are the
one that I chose to follow
Anywhere

Always
Forge ahead

No matter
Why I was born for
I was built by him, he knew
what I'll become

Now I can see leaves
growing on trees
This life I have never felt before
Looking for Gods and light
Met anything but the dark

Living in the past
Will destroy you
You whispered it into my ear
When all seemed lost
And my eyes were opened

No matter
Why I was born for
I was built by him, he knew
what I'll become

Deep inside I know
It's that way
I had to follow

When nobody cares
Everything dies
You are the one
Who's always believed in me

When nobody cares
Everything dies
You showed me the light
That stays in me

Always
Forge ahead

No matter
Why I was born for
I was built by him, he knew
what I'll become

Deep inside I know
It's that way
I had to follow

*Until this day nothing seemed
to be possible
Today I'm looking at the sky
And I see this beautiful fire
I have never seen before*

*Shadows are dead
Darkness belongs to the past
I am born*

*I found life in your eyes
And now we are looking
in the same direction
Feel no regret
This had to be done*

*From today
Take my hand
and move into the light with me*
